For the Journal. Bladen County, N. C., July 26th, 1856 MESSRS. EDITORS,-Allow us to state, through the columns of the Journal, that we have been Know

Nothings, but are now Democrats. We joined the Know-Nothing party sometime in 1855, and have acted with them ever since, without any variation whatever. We have voted for them in every instance, advocated their principles, walked and rode at the hour of midnight to meet them in some lonely place, there to exchange signs, pass-words, grips, &c But, gentlemen, they change their principles so often that it is out of our power to keep pace with them. When we joined them they were in opposition to Roman Catholics and Foreigners, but now they are in favor of both, and against Democracy; so we must abandon them and return to the folds of Democracy and to those principles we once loved and still love To that party whose watch-word is Democracy, whose grip is a fast hold of liberty, whose sign is a straightforward walk for the benefit of our country.

MESSRS. EDITORS :- I feel constrained, from what know of the Know Nothing politica! party to sayithat is a par'y, which in my opin on, is calculated not only to overthrow the liberties of the people, but also to trample under-foot the constitution of our country. and therefore I take this means to announce to the public that I no longer consider myself a member of this detestable order; and I wish the public to know that I have been grossly deceived, and I no longer consider myself as a member of that order; and I do warn my friends that if they desire to promote the best interests of their country, that the only way in which they can accomplish it is to adhere to the principles of that party are the best in my humble udgment to promote the best interests of our repub lic. SPAIN .- A formidable insurrection, in consequence pointment of a new ministry, had broken out in Spain. The insurrection commenced at Madrid on the 15th, when the National Guard, assisted by the citizens, fought the regular troops for 24 hours with much loss on both sides, but the affair was finally suppressed. One account says the insurgents had proclaimed a Republic. Gen. Nepante, the President of the Cortes, headed the insurrection. Another account says the insurrection was not sup-
